Your Master's Programme at the University of Vienna

I appreciate your interest in a master's programme at the University of Vienna. This brochure will give you an overview of the extensive range of master's programmes offered and it is aimed at helping you choose your postgraduate studies.

At the University of Vienna, research and teaching are closely intertwined. Master's students can participate actively in research processes and are involved in current research projects. Depending on their structure, master's programmes are either in-depth studies, specialising in a specific topic or have an interdisciplinary orientation. Programmes with a stronger emphasis on the enhancement of one's professional qualifications can be found in the postgraduate sector.

Having finished a master's degree, you are well prepared for the national and European labour market as well as for a doctoral/PhD programme.

I wish you all the best with choosing your master's programme and I would be happy to welcome you to the University of Vienna.

Christa Schnabl
Vice-Rector for Educational Affairs

Master's Programmes at the University of Vienna

On the following pages, you will find an overview of the master's programmes for the academic year 2018/19. The programmes are listed according to nine topics.

Information about the master's programme in Teacher Education can be found on p. 24-25. Information about postgraduate studies offered by the Postgraduate Center of the University of Vienna can be found on p. 32-34.

For each programme the following information is given:

- topics to which the programme is assigned (marked by e.g. „& 2“)
- academic degree
- responsible directorate of studies (SPL)
- structural emphasis of the degree programme (see p. 6)
- formal features of the degree programme (see p. 7)

All master's programmes comprise 120 ECTS credits. Basically, all of them are designed as full-time programmes. The University of Vienna strives to facilitate part-time studying by the range of offered classes.

The main language of instruction is German. If other language skills are required for admission, this is indicated for each programme. You can find a list of the offered foreign language programmes on p. 26-27.

Further information about all degree programmes can be found online: studying.univie.ac.at

Definition - Structural Categories

The five structural categories describe the main emphasis on content and/or method of a master's programme according to its curriculum.

Emphasis [EMPH]

The master's programme is a consecutive in-depth work on the basic knowledge gained during the bachelor's programme. An emphasis describes a continuing academic exploration of already acquired theories, methods and contents.

Individual Focus [IND.FOC]

The master's programme enables students to choose and connect topics and methods individually along the curricular guidelines. The individual selection of modules and courses enables students to choose their own path along the given framework.

(Immediate) Practical Qualification [PRAC]

Students may enter directly into a profession by using the acquired knowledge/skills of the master's programme. Therefore, the degree offers training for a specific job description.

Research/Practice Model [R/P]

The master's programme qualifies graduates to enter into either a mainly professional practice or predominantly academic track. The selection of a focus leads to a professional or academic career.

Specialisation [SPEC]

The entire master's programme is a specialisation in one part of the bachelor's programme. This means concentrating on only some aspects of the already acquired knowledge. A focus on content or methodical issues structures the programme.

Definition - Formal Categories

The six formal categories define master's programmes along formal aspects of the organisation and structure of their curricula.

Entrance Examination

To gain admission, students have to sit a specific entrance examination. Application periods might differ from general periods.

studying.univie.ac.at/entrance-examinations

Master Access Guide

The curriculum for each master's programme states the degrees that students need to hold for admission to that programme. Information about additional regulations can be found in the Master Access Guide (MAG).

studying.univie.ac.at/MAG

Foreign Language

The degree programme is not taught entirely or mainly in German. Students have to prove the required foreign language proficiency either by their previous studies or by providing relevant certificates. (Information about the required languages can be found on p. 26-27.)

Interdisciplinary

An interdisciplinary programme explores social or academic phenomena by using approaches, ways of thinking and methods from various academic disciplines.

Joint/Double Degree

The degree programme is offered in cooperation with another university or other universities. Attending courses at different universities is an inherent aspect of the programme. These programmes might have special application procedures.

Teaching Competence

The completion of the master's programme enables students to teach due to the acquired methods and competences.

Topics

1. Education, Philosophy & Religion

This field combines degree programmes that address education, philosophy or religion, discuss phenomena of other subjects from an educational, philosophical or theological perspective or broaden teaching skills in these areas.

Programme	Degree	Directorate of studies (SPL)	structural	formal
Advanced Theological Studies	MA	Catholic Theology (SPL 1)	SPEC	
Education	MA	Education (SPL 19)	EMPH	
Ethics for Teachers & Professionals	MA	Philosophy (SPL 18)	PRAC SPEC	
History & Philosophy of Science (HPS)	MA	Philosophy (SPL 18)	SPEC	
Islamic Religious Education	MA	Islamic Studies (SPL 14)	SPEC	
Jewish Studies (& 2, 4, 8)	MA	Jewish Studies (SPL 6)	EMPH	
Middle European interdisciplinary master's programme in Cognitive Science (MEi:CogSci) (& 6, 7)	MSc	Philosophy (SPL 18)	SPEC

 Teaching Competence

Master's Programme in Teacher Education

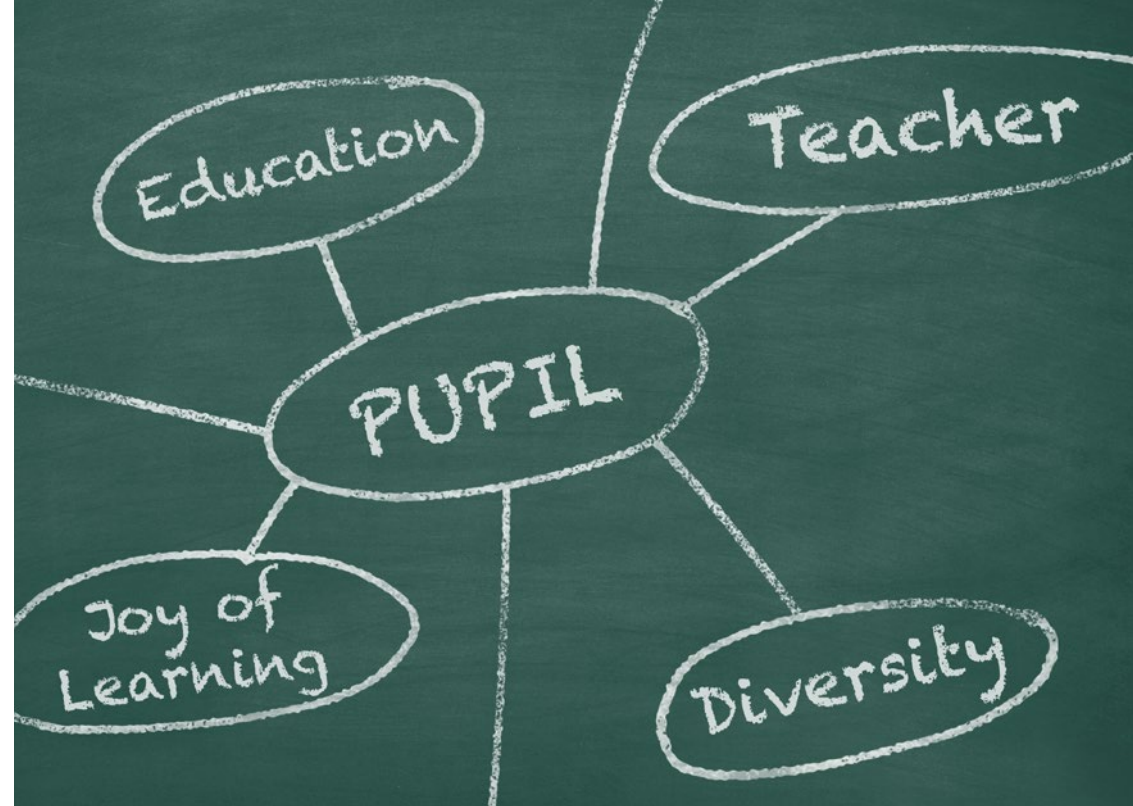

The Teacher Education programme trains students for teaching in (Austrian) secondary schools. The programme – which the University of Vienna offers in cooperation with the university colleges of teacher education in Vienna and Lower Austria – aims at a professional, didactical and educational emphasis on knowledge gained during the bachelor's programme in Teacher Education.

For admission, a bachelor's degree in Teacher Education (240 ECTS credits) is required. The programme combines two teaching subjects and a pedagogical part. It has a duration of four semesters and comprises 120 ECTS credits. You graduate as a "Master of Education" (MEd).

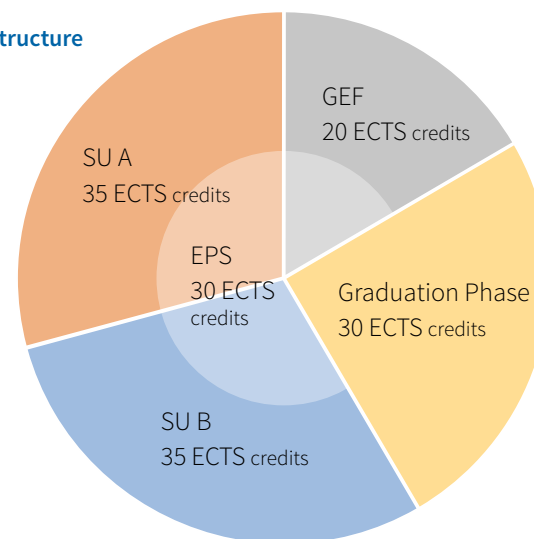

The following subjects are being offered:

- Biology & Environmental Studies
- Bosnian/Croatian/Serbian
- Catholic Religion
- Chemistry
- Computer Science
- Czech
- Descriptive Geometry
- English
- French
- Geography & Economics
- German
- Greek
- History, Social Studies & Political Education
- Home Economics & Nutrition
- Hungarian
- Italian
- Latin
- Mathematics
- Physics
- Polish
- Protestant Religion
- Psychology & Philosophy
- Russian
- Slovakian
- Slovene
- Spanish
- Sports & Physical Education

Further information: lehramt-nordost.at

Structure

Duration: 4 semesters
Scope: 120 ECTS credits*

SU.....Subject
GEF.....General Educational
Fundamentals
EPS.....Educational/Practical
Studies

* One ECTS credit has a workload of 25 working hours (preparation and revision of courses, participation in the course, preparation for examinations, writing of papers, etc.).

Programmes in Foreign Languages

The degree programme is not taught entirely or mainly in German. Depending on the master's programme, the language skills need to be proven by either the previous degree or by specific certificates. If more than two languages are stated, you need to choose the languages according to the curriculum. If German is stated as a language, proficiency is required for admission.

Information about the necessary level of language(s) and certificates can be found here: studying.univie.ac.at/foreign-language-programmes

Programmes in English

Translation	German & Bosnian/Croatian/Serbian, Chinese, Czech, English, French, Hungarian, Italian, Japanese, Polish, Portuguese, Romanian, Russian, Spanish
Turkish Studies	German & Turkic

Admission to Master's Programmes

Requirement

To be admitted to a master's programme students must have completed an eligible bachelor's or diploma programme at a recognised post-secondary educational institution. Information about the admission to postgraduate studies provided by the Postgraduate Center can be found on p. 32-34.

Information about eligible diplomas can be found in the curriculum of the degree programme or in the Master Access Guide (p. 7). If you are applying with other diplomas, the directorate of studies will decide individually on admission.

At the University of Vienna your application

1. can be approved,
2. can be approved under special conditions or
3. can be rejected.

If your admission is subject to specific conditions, additional courses of a maximum of 30 ECTS credits need to be completed during the master's programme to compensate for missing knowledge.

Admission Procedure

The admission procedure and required documents depend on the degree programme for which you want to apply, the location of your previous studies and the citizenship you hold.

Basically, it consists of four steps:

1. Application for admission
2. Receiving an official notice about the admission decision
3. (Personal) admission (having received a positive admission notice)
4. Paying tuition/Students' Union fee

Further information (concerning the range of offered degree programmes, admission procedures and tuition fee) can be found here: studying.univie.ac.at

Visiting Master

Are you studying a master's programme and would like to spend a semester at the University of Vienna to complete courses and use the university facilities (e.g. libraries)? The "Visiting Master"

– which is open to all students (even to those whose university does not have a mobility programme cooperation with the University of Vienna) – provides this opportunity.

Student Exchange Mobility Programmes

You are a student in a master's programme at the University of Vienna? You would like to spend a semester/year at one of the partner universities abroad? The International Office provides counselling concerning their various offers.

Erasmus+

As a student of the University of Vienna, you can spend a part of your studies at one of approximately 360 partner universities in Europe with the help of the mobility programme Erasmus+. The Erasmus+ International mobility programme offers study opportunities at universities outside the EU.

Non-EU Student Exchange Program

For stays outside of Europe, the university offers a Non-EU Student Exchange Program. Almost 80 selected, prestigious universities in North and Latin America, Australia, Asia, Africa, Russia or Ukraine are partners in this programme.

Research around the world with KWA

Students of all disciplines can apply for a short-term scholarship abroad (KWA) to do research for their diploma, master's or doctoral thesis. KWA supports e.g. laboratory work, fieldwork or research in archives, libraries and scientific collections.

Incoming Students

As part of the above-mentioned mobility programmes, the University of Vienna also welcomes students from partner universities. If you are a student at one of the partner universities and you would like to spend a semester/year at the University of Vienna, you can get information at the International Office.

Information on all programmes:
international.univie.ac.at/en/home

Language Courses at the Language Center

The Language Center offers (prospective) students of all study programmes, university employees and alumni a wide range of general and specialised courses at various levels of proficiency, in German and more than thirty languages.

For details see sprachenzentrum.at.

Erasmus Outgoing

Erasmus preparation courses address specifically students who plan to participate in semester or year-long Erasmus exchange programmes in foreign countries.

These courses include important information and advice for everyday life in the university environment, alongside academic, formal and social requirements and challenges which outgoing students can expect being confronted with.

However, Erasmus nomination is not a requirement for participation in these courses, which are also adequate as preparation for non-mobility programme stays abroad.

- English Erasmus Preparation Course (B2)
- French Erasmus Preparation Course (B1)
- Italian Erasmus Preparation Course (B1)
- Spanish Erasmus Preparation Course (B1)

Language Competency Certificate

The Language Center of the University of Vienna offers not only Erasmus+ preparation courses but also exams for Language Competency Certificates that are accepted by the University of Vienna.

Erasmus Incoming

Knowledge of the German language is a prerequisite for studying at the University of Vienna since most courses are held in German (with the exception of selected master's/PhD programmes).

Hint: the International Office of your home university can provide information with regard to the language requirements of every field of study of the University of Vienna. Before you start your lectures at the University, you can prepare for your studies by attending an intensive September or February course; in addition, you can further enhance your German skills during the semester by participating in a trimester course.

Exchange students will be granted a **discount of 20%** on all trimester courses, February courses and summer courses, if they present the *Certificate of Arrival* of the University of Vienna (which you receive from the International Office). There is no discount on semester courses.

See sprachenzentrum.at/Erasmus-en

Postgraduate Studies

The Postgraduate Center of the University of Vienna offers a wide range of advanced postgraduate programmes including approximately 50 profession-oriented master's degrees, university continuing education and training programmes and academic certificate programmes. About 1,700 students complete postgraduate studies every semester and thereby they specialise in a certain field after their first academic degree.

The programmes are ECTS-based and internationally recognised. Around 500 inter-/national lecturers impart interdisciplinary and job-related knowledge. Six programmes are taught completely or partially in English. This underlines the internationality of the programmes. Many of these programmes are offered part-time with varying fees. They are all subject to the highest quality standards.

On average, the number of students is limited to 20-30 participants. This enables high-quality learning settings with an optimal teacher-student ratio and innovative teaching approaches (combining academia and practice). Postgraduate studies have special admission procedures that vary from programme to programme. Detailed information about e.g. fees, term dates and lecturers can be found on the website of each programme.

For further information, please visit the website of the Postgraduate Center:

Services

Teaching Affairs & Student Services

The Teaching Affairs and Student Services of the University of Vienna offers information concerning questions about the range of degree programmes offered, the admission process and the tuition fee.

studying.univie.ac.at

Admission Office

The Admission Office is responsible for admission affairs. It examines applications in regard to formal correctness, forwards applications for substantive examination to the directorate of studies and issues official notices. Having received an official notice of admission, students have to finalise the admission personally in the Admission Office.

Directorate of Studies (SPL)

The directorate of studies organises the curriculum of a degree programme and provides information about organisational and legal study issues. The directorate decides whether or not an applicant is eligible to study a certain programme.

univie.ac.at/en/about-us/governance-structure/organisation-of-studies-courses

StudiesServiceCenter (SSC) StudiesServiceUnit (SSS)

The SSC/SSS support the directorate of studies in the organisation of degree programmes. They coordinate the registration for courses and examinations, release of grades, transfer of credits, etc.

univie.ac.at/en/about-us/governance-structure/organisation-of-studies-courses

Students' Representatives

The students' representatives are part of the Austrian National Union of Students (ÖH). The representatives of each degree programme are themselves students of the programme. Therefore, they have a close insight into the degree and can give first-hand information about the programme.

oeh.univie.ac.at/fakultaets-und-studienvertretungen (in German)

International Office

The International Office coordinates all mobility programmes of the University of Vienna. Its service includes managing, supporting and counselling concerning Erasmus+ and Non-EU Student Exchange programmes as well as some other programmes.

international.univie.ac.at/en/home

Language Center

The Language Center of the University of Vienna offers (prospective) students a wide range of courses at various levels of proficiency, in German and more than thirty languages.

sprachenzentrum.at

Postgraduate Center

Postgraduate studies enable the acquisition of interdisciplinary and practical-oriented qualifications to specialise in the knowledge gained during the first degree. The majority of the programmes can be studied part-time and all of them are subject to international university standards.
