ISC PARIS' DNA

ISC Paris, a gateway to the world of business and to businesses of the world.

Joining ISC Paris is not joining just any business school: it is an institution of excellence, building on three major assets.

First, an entrepreneurial mindset, our distinctive mark, deep-seated throughout our entire institution. Rather than associations, traditionally very active in an establishment training future leaders, ISC Paris has preferred genuine student companies. A business purpose, means, budget, a full-fledged organization with duties assigned according to profiles, personal inclination and recognition of personal commitment and expertise, here are the keys to learn how to succeed in a company and how to create a successful business.

Second, being based in Paris offers street benefit. Our campus is ideally located in western Paris, where many French and international companies have established their headquarters and where foreign ones have chosen to develop their business. This proximity ensures our students an easy access to internships, work and study programs and jobs once they graduate.

Last but not least personal fulfillment is our main focus. Diversity in its recruiting practices, students' backgrounds and profiles show the respect of our establishment for talents and characters, just as a company itself draws on these differences within its teams.

Beyond this identity, ISC Paris is part of the best French and international *Grandes Écoles*, AACSB accredited. ISC Paris is also recognized internationally for our academic excellence, as shown by our recent entry in the very selective Financial Times rankings. With us, learn the keys to become a world manager.

INTERNATIONAL PARTNERS

Our dedicated international office supports you throughout the application process, helps you finance your studies abroad and prepare your stay. ISC Paris international policy is developed in order to enhance exchanges and allows students to experience different ways of learning, doing, living.

- 142 international partners

STUDENT COMPANIES

At the heart of ISC Paris are the student organizations. It is important for students to have experiences outside of the classroom, those are highly valued experiences. From sports to arts to entrepreneurship, you will be able to blossom in and outside of the classroom in ISC Paris' **14** different student companies.

Participating in projects with your classmates and taking leadership positions in those organizations is an integral part of the ISC Paris' experience.

Those will allow you to gain experience, build a network and grow through opportunities with peers and professional partners.
