

Linköping University 2019

Linköping University, LiU, conducts world-leading, boundary-crossing research in fields that include materials science, IT and hearing. In the same spirit, the university offers many innovative educational programmes, frequently with a clear professional focus and leading to qualification as, for example, doctors, teachers, economists and engineers.

LiU was granted university status in 1975 and today has 32,000 students and 4,000 employees. The students are among the most desirable in the labour market and international rankings consistently place LiU as a leading global university.
